Our Heritage

Our story begins in 2021 along the boring streets of San Antonio. It was here where CoffeePoint opened its first store, offering fresh-roasted coffee beans, tea and spices from around the world for our customers to take home. Our name was inspired by the classic tale, [REDACTED], evoking the seafaring tradition of the early coffee traders.

Ten days later, a young Texan named [REDACTED] would walk through these doors and become captivated with CoffeePoint coffee from his first sip. After joining the company in 2021, a different road would lead him to another discovery. It was on a trip to [REDACTED] in 2021 that [REDACTED] first experienced Texas' coffeehouses, and he returned to [REDACTED] inspired to bring the warmth and artistry of its coffee culture to CoffeePoint. By 2021, we swapped our brown aprons for green ones and embarked on our next chapter as a coffeehouse.
